

# SAFe® for Teams (SAFe® Practitioner) v6, certification

Hands-on course of 2 days - 14h

Ref.: SFT - Price 2025: 2 110 (excl. taxes)

SAFe® (published by Scaled Agile) is a framework designed to enable enterprise-wide agility. Based on Agile frameworks such as Scrum, XP, or Kanban, it allows multiple teams to collaborate on a portfolio of products. This "SAFe® for Teams" training enhances understanding of team collaboration mechanisms within an Agile Release Train (ART), facilitating Lean-Agile deliveries within a framework of continuous improvement. The training prepares participants for the "SAFe® Practitioner (SP)" certification.

## EDUCATIONAL OBJECTIVES

At the end of the training, the trainee will be able to:

Understand the operations and interactions of an Agile team within the context of an Agile Release Train (ART)

Plan and execute iterations and Program Increments (PI)

Apply SAFe® principles to evolve Lean-Agile deliveries

Continuously improve the ART

## CERTIFICATION

The exam is administered online, in French or English, within a month following the training. It consists of a 90-minute multiple-choice questionnaire with 45 questions. A minimum score of 80% is required to pass the exam.

## THE PROGRAMME

last updated: 06/2024

### 1) Introduction to SAFe®

- The Scaled Agile framework.
- The 7 core competencies of Business Agility.
- Lean-Agile mindset and SAFe® values.
- SAFe® principles.

### 2) An Agile Team in an ART (Agile Release Train)

- Cross-functional teams.
- Roles of the Scrum Master and Product Owner.
- Scrum and Kanban in a SAFe® context.
- Forming an ART.

### 3) Focusing on the Customer

- Applying customer centricity and design thinking.
- Understanding product vision and roadmaps.
- Defining needs with customer support.

### 4) Planning the Work

- Creating the Backlog.
- Collaborating through PI Planning.
- Iteration planning.

## PARTICIPANTS

Team leads and anyone involved in implementing enterprise-wide agility.

## PREREQUISITES

Solid understanding of Agile methodology. Experience within an Agile team.

## TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

## ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

## TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

## TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.

## ACCESSIBILITY FOR PEOPLE WITH DISABILITIES

Do you need special accessibility accommodations? Contact Mrs. Fosse, Disability Manager, at [psh-accueil@ORSYS.fr](mailto:psh-accueil@ORSYS.fr) to review your request and its feasibility.

#### 5) Delivering Value

- Continuous integration, deployment, and delivery.
- Synchronization and alignment of deliveries.
- Quality management.

#### 6) Gathering Feedback

- Collecting customer feedback.
- Demonstrating value in iteration reviews.
- Learning the System Demo.

#### 7) Continuous Improvement

- Enhancing skills.
- Optimizing flow.
- Improving outcomes.
- Analyzing Critical Success Factors (CSFs).
- Developing dashboards.

#### 8) Practicing SAFe®

- Information for the exam.
- Introduction to the SAFe® community.
